

NASIF SWALAH

FULL STACK DEVELOPER

Wayanad, Kerala • +91 6282552726 • nasifswalah@gmail.com • Portfolio • Github • LinkedIn

PROFESSIONAL SUMMARY

Full Stack Developer with 2 years of hands-on experience building and maintaining web and mobile applications using **TypeScript-based stacks** including NestJS and Next.js, along with the **MERN ecosystem**. Experienced in **designing backend** architectures with PostgreSQL and MongoDB, developing REST APIs, **integrating third-party** services, troubleshooting data flows, and building reliable dashboards and internal tools. Skilled in **real-time systems** with Socket.io and integrations including WhatsApp Cloud API and Firebase.

TECHNICAL SKILLS

- **Backend:** Node.js, NestJS, Express.js, Socket.io (Real-time), Python, REST APIs, Webhooks, Third-Party APIs.
- **Frontend:** HTML, CSS, JavaScript, TypeScript React, Next.js, React Native, Expo, TanStack, Zustand, Redux, Framer Motion.
- **Database & UI:** PostgreSQL (TypeORM), MongoDB, Firebase, Tailwind CSS, Shadcn UI, Hero UI, Res.
- **Security & Auth:** JWT, RBAC, Firebase Auth, Request/Response Encryption, Authentication & Authorization.
- **Development:** Debugging, Troubleshooting, Testing, Error Handling, Data Validation
- **Documentation:** Technical Documentation, API Documentation

PROFESSIONAL EXPERIENCE

The Madras Branding Company

Senior Backend Developer

Chennai, India

Nov 2024 – June 2026

- Lead end-to-end architecture for enterprise-grade web and mobile platforms, making high-level decisions on **PostgreSQL/MongoDB** schemas, **API design and integration**.
- Enforce high-quality standards through rigorous code reviews and maintain **reusable components** across all platforms.
- Manage the entire mobile lifecycle using EAS, successfully publishing and maintaining builds on the **iOS and Android**.
- Standardized high-security patterns across the company, including **JWT Refresh Token rotation, RBAC, and Request/Response data validation**.
- Implemented an **Excel-based data export** feature within the admin dashboard, enabling administrators to efficiently export and analyze platform data for reporting and operational requirements.
- **Promoted from Junior Developer within 9 months** in recognition of strong technical ownership, problem-solving, and consistent delivery of production-ready systems.

Selected Project Experience

Professional Networking Platform

- Directed the full-stack architecture of a medical innovation platform using Next.js and React Native (Expo) with a focus on **real-time professional networking**.
- Engineered a persistent **chat and notification system using Socket.io** with custom heartbeat and reconnection logic.
- Enhanced data privacy by implementing an Encryption layer for all sensitive Request/Response data.
- Secured the platform using **Firebase SMS OTP** for users and Access/Refresh Token rotation for the administrative dashboard.
- Developed a library of **reusable UI components** and **Framer Motion animations** to support complex document preview workflows and improve UI consistency.

Fintech & Invoice Management Platform

- Architecting a B2B financial platform using **NestJS** with **TypeORM** and **NextJS** to manage the full lifecycle of invoices, contracts, clients and receivables.
- Integrated third-party APIs for real-time GST and Bank Account verification to automate secure onboarding.
- Utilized **Cron jobs** with Schedulers for payment reminders and multi-channel invoice delivery via email.
- Implemented high-security route protection and JWT session persistence to safeguard user access.

Employee Engagement Platform

- Engineered with a 4-tier **RBAC system** (Super Admin to Team Lead) to support multi-tenant management and data isolation across diverse organizations.
- Architected a real-time leaderboard using Views in PostgreSQL to calculate engagement metrics across weekly, monthly, and yearly intervals.
- Implemented a content governance engine with configurable Admin-Approval workflows to manage user-generated content.
- Integrated Firebase **Google OAuth** and **JWT auth** to provide a unified login experience across Web and Mobile platforms.
- Spearheaded the **migration of legacy RN CLI to Expo** and managed the full release cycle for IOS and Android submissions

Entri Software Pvt Ltd	Kochi, Kerala
MERN Stack Intern	Sep 2024 – Oct 2024
• Developed a full-stack Turf Booking Platform featuring real-time slot management, an interactive user dashboard, and Role-Based Access Control (RBAC) for admin and customer management.	

CERTIFICATIONS

Full Stack Development Illinois Tech University	Sep 2024
Full Stack Web Development (MERN) NSDC in association with Entri Software Pvt Ltd	Sep 2024

EDUCATION

Diploma In Computer Hardware Engineering Gov. Polytechnic College, Meppadi, Wayanad	2020 – 2023
Higher Secondary Education Gov. Higher Secondary School, Meppadi, Wayanad	2018 - 2020
